Dear Mr. Brown, thank you for the opportunity to experience college life, somewhat. I learned that in order to get into a good college, it starts in middle school. I see myself as a fashion designer in New York one day. Love, Jasmine

Dear Mr. Brown, thank you for making it possible for me to go on the college trip. It was amazing. The tour guide said you would need a 3.5 average to get in. I can't wait to go to college! Sincerely, Tywane

**THE WATSON-BROWN FOUNDATION:
THANK YOU!**

Dear Mr. Tad Brown, Thank you so much for your generosity. You made a big impact on my life and on my fellow classmates' lives. Our college trip was amazing! I have decided I want to go to University of Georgia. The history of that school is fascinating. Did you know that the two young people who desegregated UGA were Hamilton Holmes and Charlayne Hunter? With thanks, Kayla

Dear Mr. Brown, thank you so much for our 6th and 7th grade college road trip. Oxford was cool. It was not very big but that is good because classes are close by. I might consider going there. If I went to UGA, I would walk under the arch because I have good teachers to help me pass. Georgia Tech had a lot of technical stuff, it was a lot of fun playing in the robotics lab. I love Science. I really want to be a basketball player but if that doesn't work out, I will be a math and science teacher. There are too many hills, but I love Tech anyway! - Roderick

Mr. Brown, I am very thankful for the opportunity to see the possible opportunities offered at Emory, GA Tech and UGA. I learned a lot about the process of getting into college. I am thinking about going to Georgia Tech because they have an electronics department and a great basketball team. -Joseph

*Dear Mr. Brown,
Thank you for helping to pay for the trip. What impressed me was the history at UGA! There is a legend if you cross under an arch you will not graduate. They also had the first African Americans to go there. I see myself being an Animal Cop but I don't know which college you go to for that. - Kwasi*

Dear Mr. Brown,
Thank you for making the college road trip possible. It was a thrill seeing new things. I have watched college movies on TV but seeing the whole experience was great. This helps get me thinking about my future. I really felt like a college student walking through the campuses. God bless you and again, Thank You! - Christian
